

Chamber Data Systems has been helping chambers of commerce with their membership management since 1984, when our initial version of CC-Assist was released.

Our newest version of CC-Assist allows you to offer compelling benefits to your members, generate non-dues revenue, streamline your work processes, and provide your staff a user-friendly management program that is flexible enough to adapt to your chamber's changing needs over time. CC-Assist is an internet-based application comprised of an extremely robust and flexible chamber management component and an extensive suite of online services and Web pages. The sophisticated design which underlies CC-Assist makes it exceptionally fast and allows you to work with your data in an offline mode when no internet connection is available.

CC-Assist gives you the ability to

- ✓ Manage members, events, prospects, sales opportunities, and related financials all from one place
- ✓ Send transactions directly to your QuickBooks desktop application eliminating duplicate entry
- ✓ Easily configure thousands of important reports which can be memorized for future access
- ✓ Design visually appealing communications and Web content using a MS Word-like visual designer.
- ✓ Efficiently communicate with members via emails and texts.
- ✓ Make data-driven decisions using an Executive Summary report
- ✓ Create batch or individual invoices for dues, non-dues, events, etc.
- ✓ Track automatic payments and apply late fees to invoices
- ✓ Simplify event management with
 - Online registrations including payments
 - Member and non-member registrations
 - Group and individual registrations
 - Event sponsorships
 - Maximum attendee limits
 - Procedures to send mass advertisements and reminders for upcoming events
- ✓ Navigate easily through your data via customizable tabular views which can be sorted and searched by any column

Your database information flows seamlessly into your website with CC-Assist. And changes made to your information through your website are automatically visible within CC-Assist. We can provide all-inclusive

website design for simple one-stop shopping at a price you can't beat, or we can integrate CC-Assist into your existing website. CC-Assist currently includes the following online Web pages/services:

- ✓ Business directory with [enhanced listings](#) and [advertisements](#)
- ✓ Members-only
- ✓ Standard new member application
- ✓ Member promotions with online submission form
- ✓ Job postings with online submission form
- ✓ Chamber calendar of events with online registrations
- ✓ Community calendar of events with online event submission form
- ✓ News updates with online submission form
- ✓ Request info form

All data updates are in real-time, so you will not have to do any duplicate data entry when using CC-Assist. Visit our [demo site](#) to view examples of the above CC-Assist online pages. Below are examples of chamber websites we have designed and built as part of our all-inclusive package.

[Cordele-Crisp Chamber of Commerce](#)

[Michigan City Chamber of Commerce](#)

[Evansville Area Chamber of Commerce](#)

[Batesburg-Leesville Chamber of Commerce](#)

[Pittsburg Area Chamber of Commerce](#)

[South Belt-Ellington Chamber of Commerce](#)

[Fairborn Area Chamber of Commerce](#)

[Friendswood Chamber of Commerce](#)

CC-Assist also interfaces directly with several third-party applications including QuickBooks, Facebook, Twitter, Constant Contact, EZ Texting, MS Word, Excel, and Outlook. You can easily send blast e-mails or personalized e-mails directly from CC-Assist via MS Office.

CC-Assist Mobile allows you to access your member and event information in a web browser or on a mobile device from anywhere outside the office with an internet connection. Take your data on-the-go when visiting prospects or to your events to streamline your attendee check-in process.

All training for CC-Assist is provided in a series of training videos which are available for viewing by new staff anytime. We also provide interactive Q&A sessions to accompany each of the video lessons. We look forward to helping you with your chamber management!
